Hi Victor,

I took some liberties and made you a "pain room" sign (actually an over-sized black label) on an "imagined door".

Maybe you can use this to kickstart your project promo?

Murray :)

Hi Victor,

Sure. I could send it to you this weekend!

Murray

PS: The site link I sent you for an interactive sample to the Winnipeg Film Group is mine and is a good place to experiment leading up to (and possibly beyond) and positive or negative grant outcome. I could also add it to this existing site, in addition to a still.

please put the sign you made on a door like mine, have sent a photo or two :)

re my website....should we be so lucky I imagine we'd get a proper domain, an independent site with all the trimmings limited as usual by time and money....

meanwhile I want to piddle around at the back of my website..
